

Directions for use:

Electric Kettle:

1. Fill electric kettle with warm water.
2. Drop tablet/s into the kettle.
3. Allow the warm water to boil & wait for tablet/s to dissolve. Repeat if needed until kettle appears clean.
4. Wash kettle thoroughly with fresh water before use.

Iron:

1. Dissolve one tablet in $\frac{1}{2}$ litre of warm water.
2. Unplug iron.
3. Pour the dissolved solution into the iron's water compartment and drain through iron.
4. Once clean flush with fresh water to drain out any residue.

Note:

1. If it is difficult to drop the tablet into the kettle, dissolve the tablet/s into a container of warm water, then pour solution into the kettle.
2. Generally 1 tablet is required for $\frac{1}{2}$ litre of water. For extra strength simply add another tablet/s.

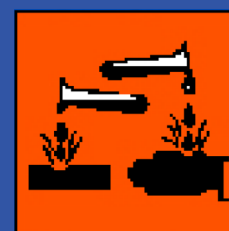

Warning:

1. Avoid contact with eyes and skin.
2. In case of contact with eyes, immediately flush with water for at least 15 minutes - seek medical attention immediately. If skin is in contact, flush with water for at least 15 minutes whilst removing contaminated clothing. If irritation occurs seek medical attention immediately.
3. Harmful if swallowed. Wash mouth out with water and seek medical advice immediately and show this label. Do not induce vomiting unless directed to do so by medical personnel.
4. Wear suitable protective clothing such as gloves and eye/face protection.
5. Keep contents dry & packaging to be kept intact in a cool, well ventilated area.
6. Keep away from combustible material, oxidising/ reducing agents, bases & metal nitrates.
7. Inhaling fumes can be harmful.
8. Only for use in ventilated rooms.
9. Keep away from children and pets.

FIRST AID: For advice, contact the Poisons Information Centre (phone Australia 13 11 26; New Zealand 0800 764 766) or contact a doctor immediately.
